Herzlich Willkommen

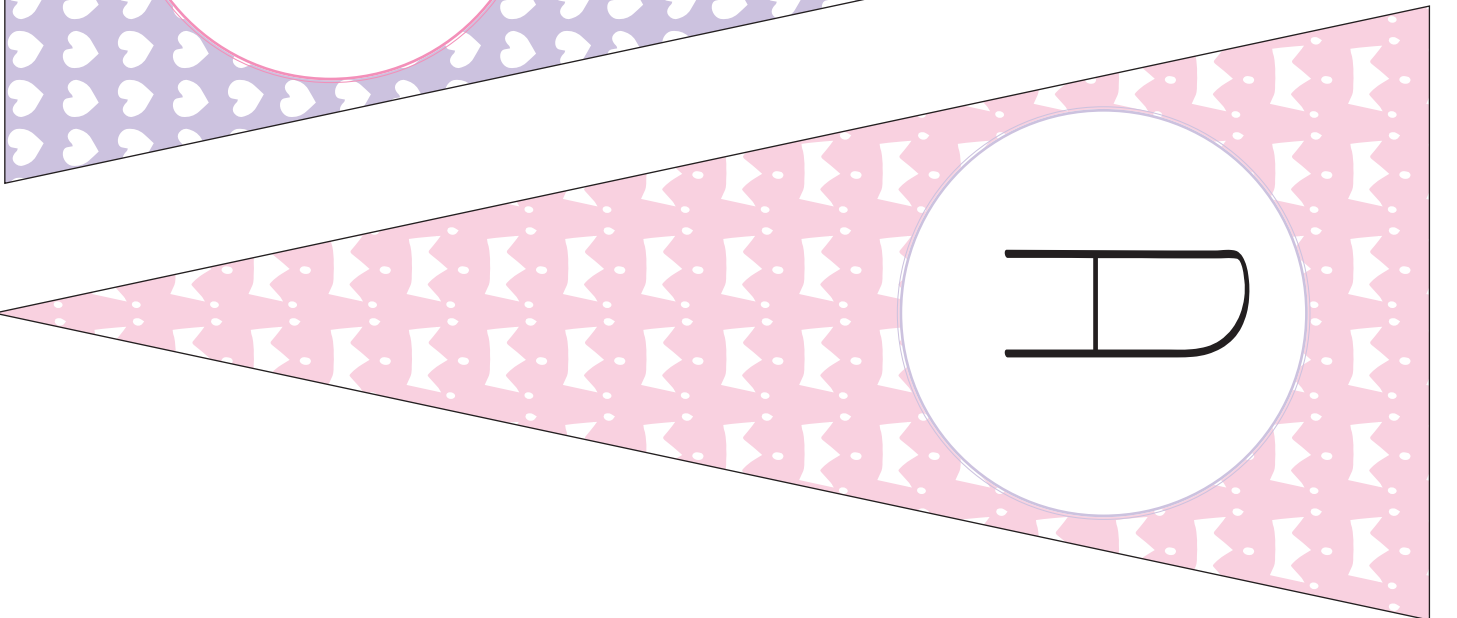

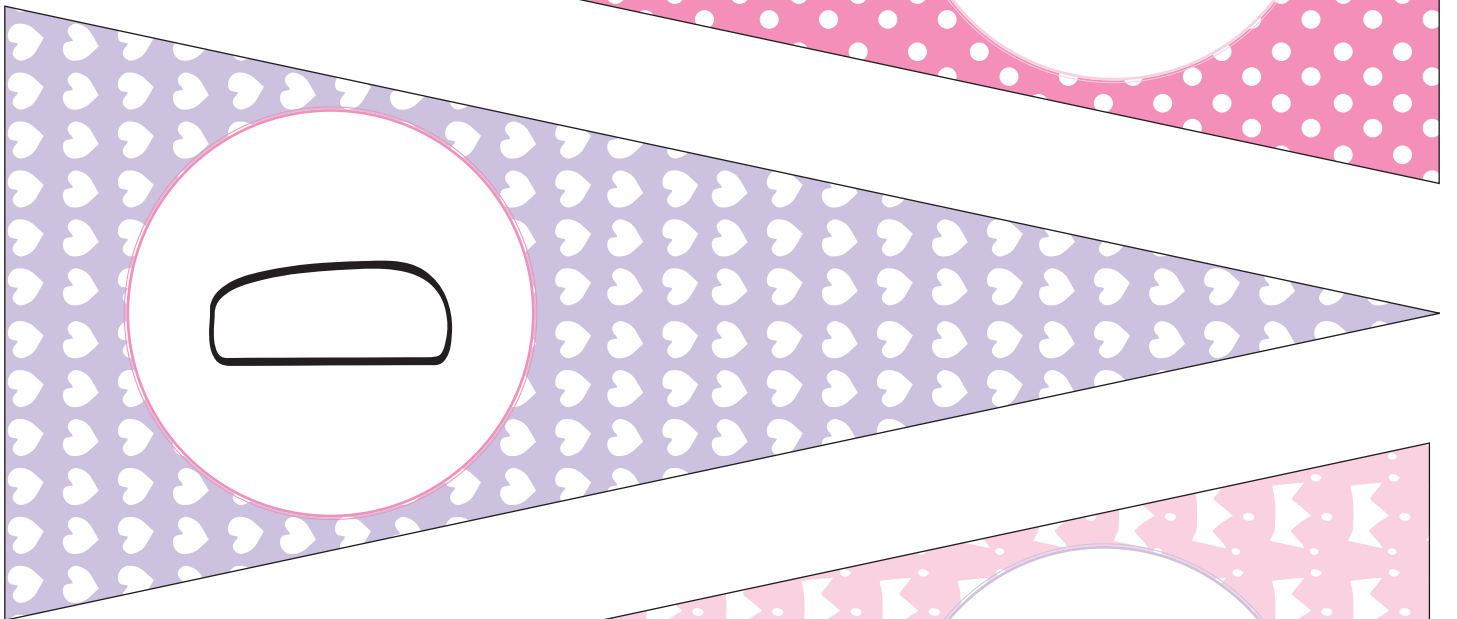

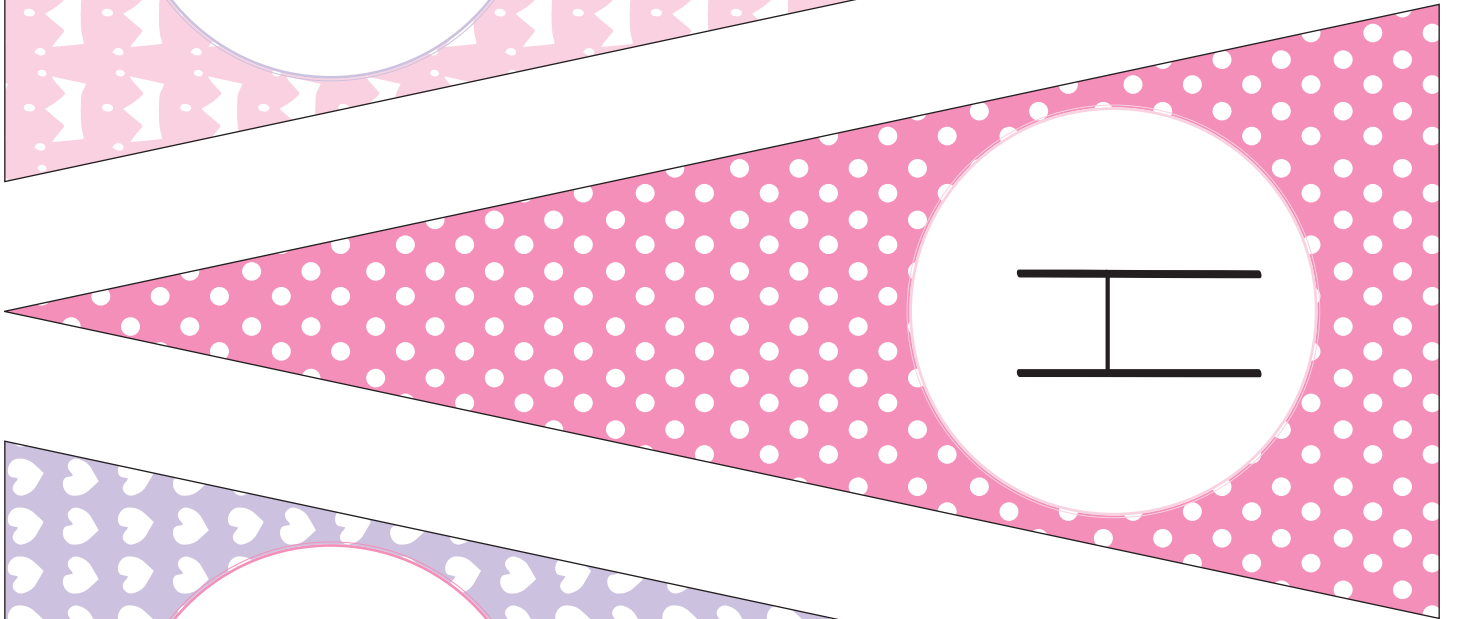

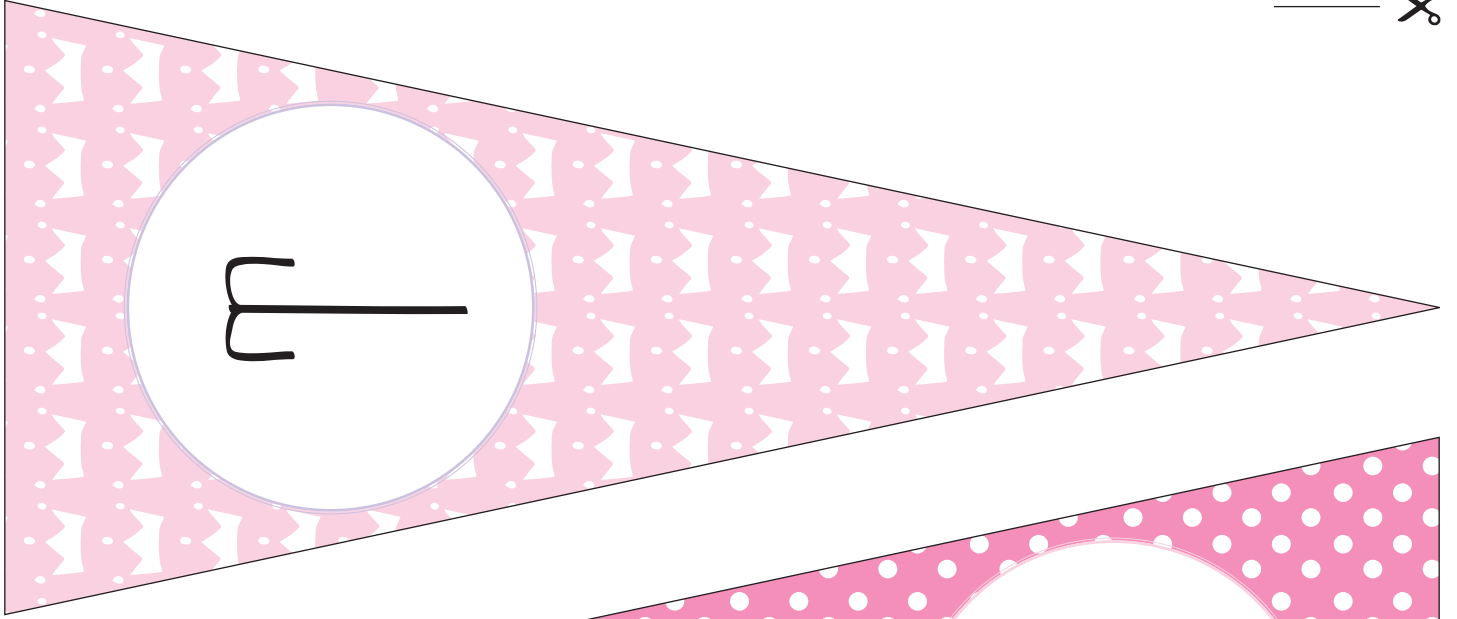

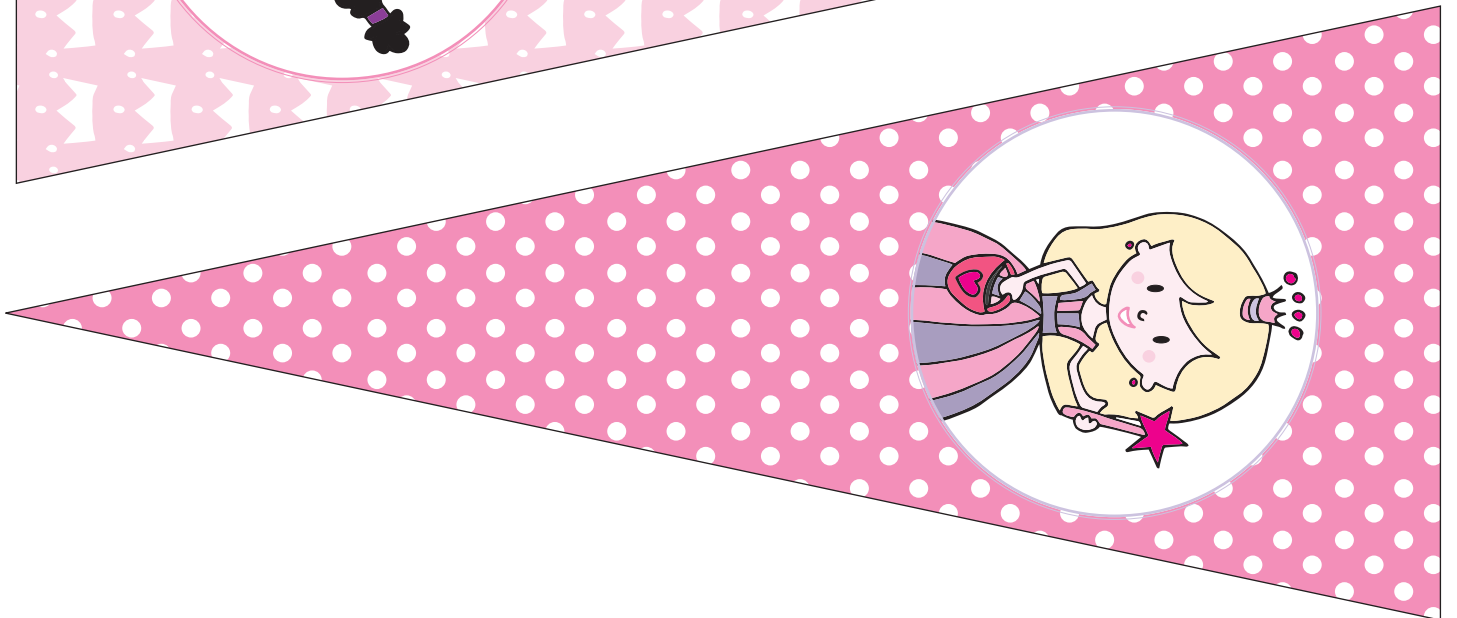

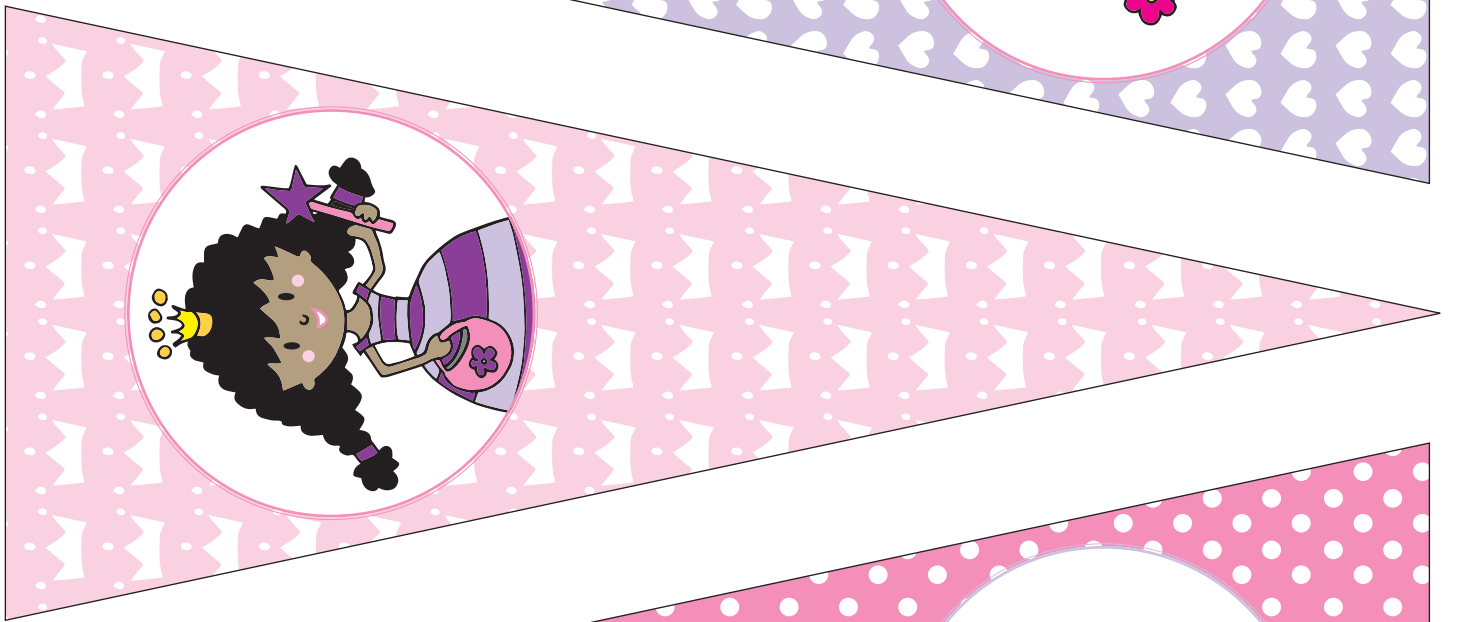

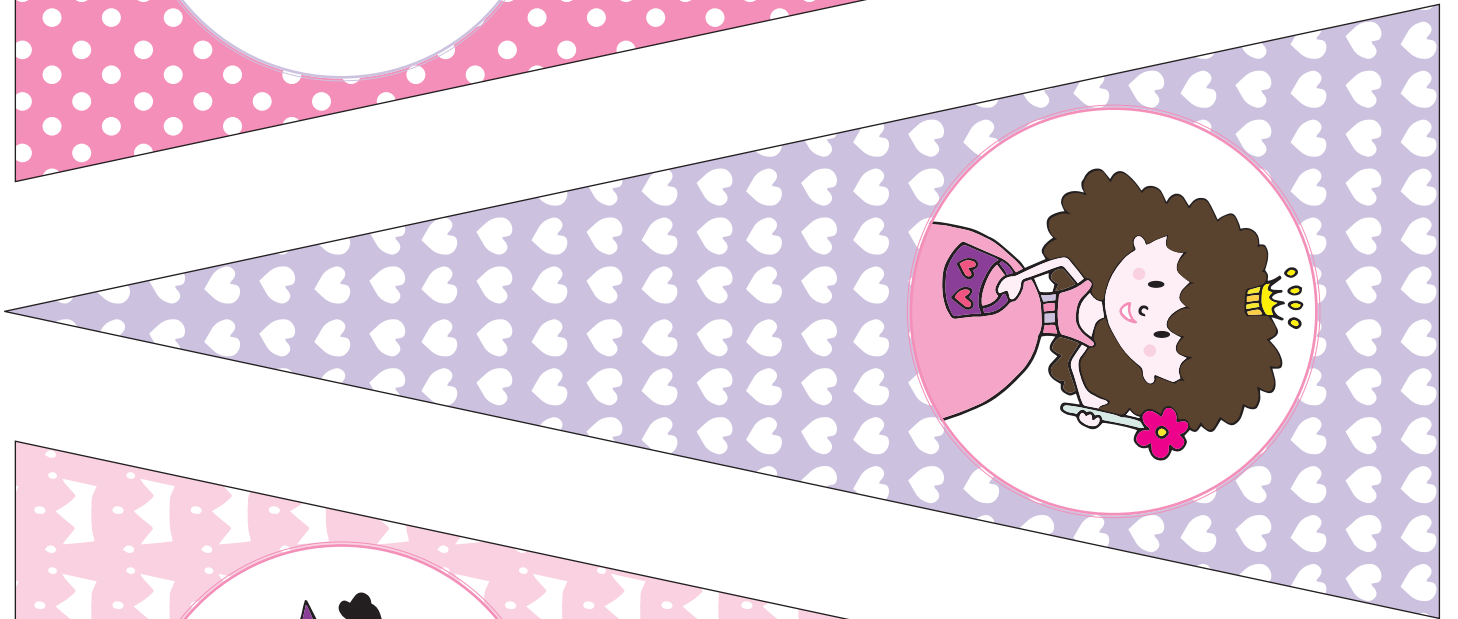

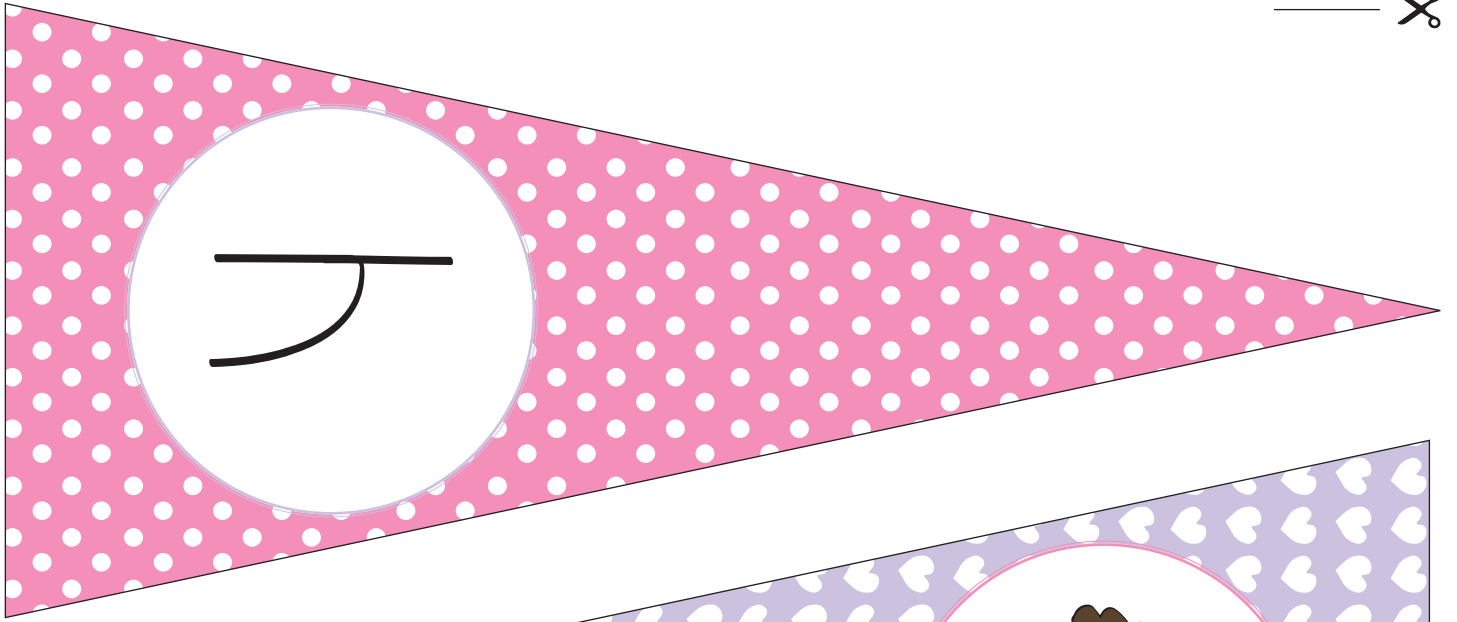

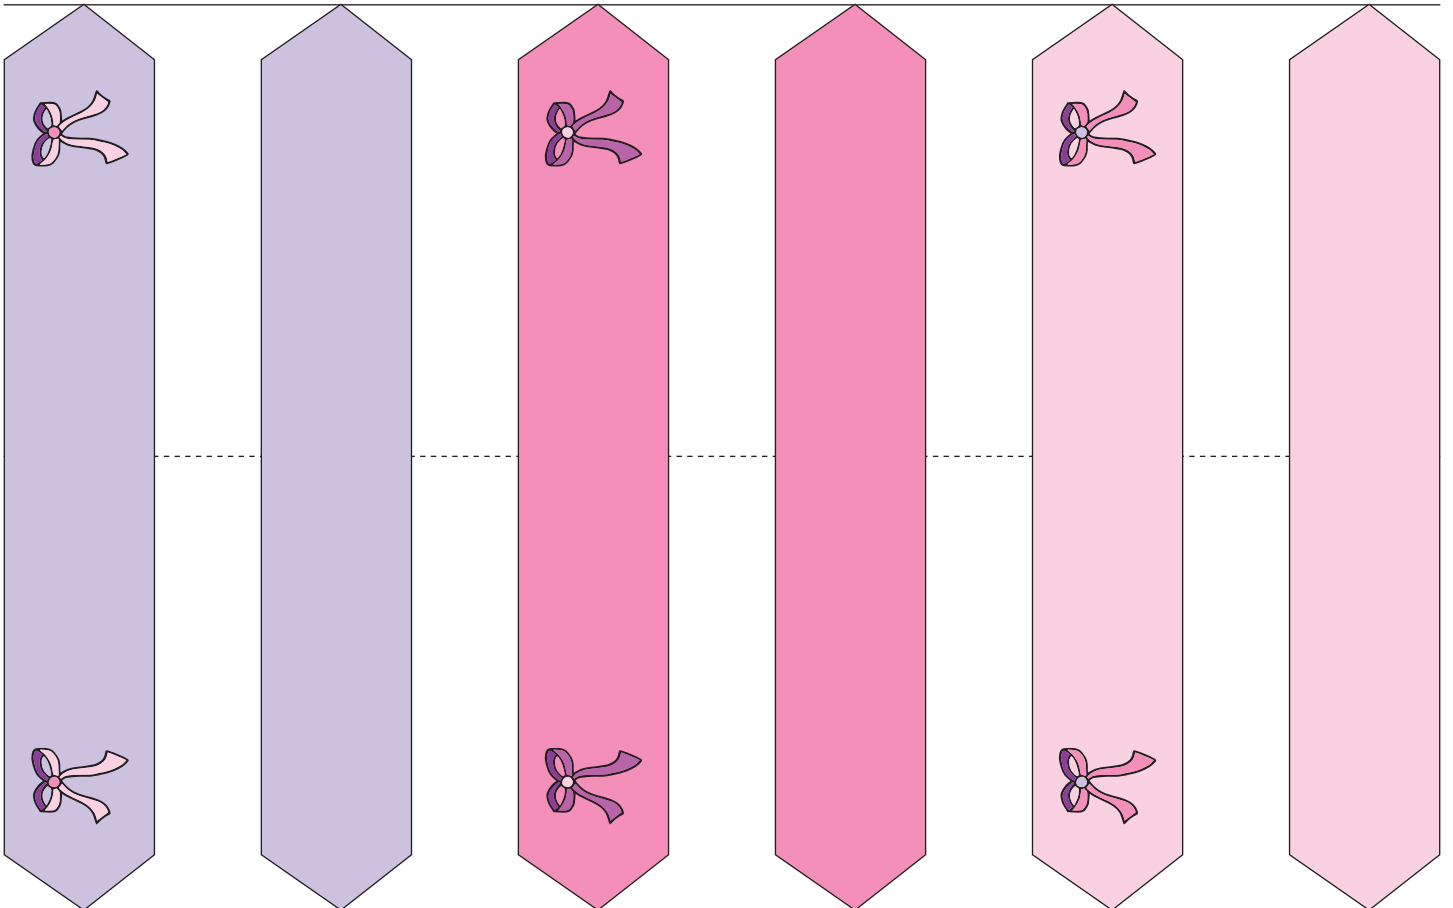

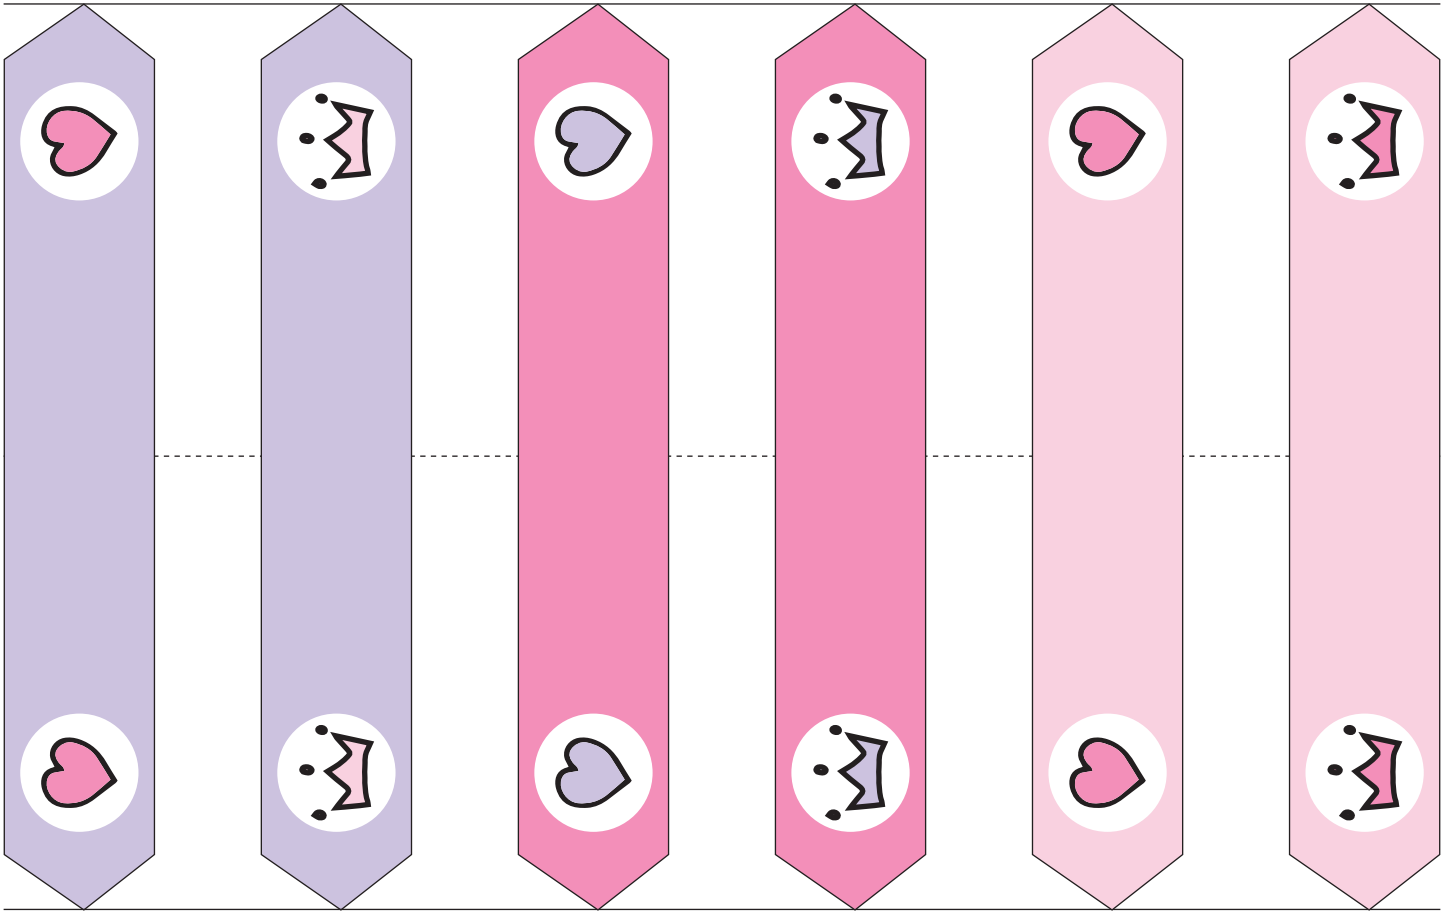

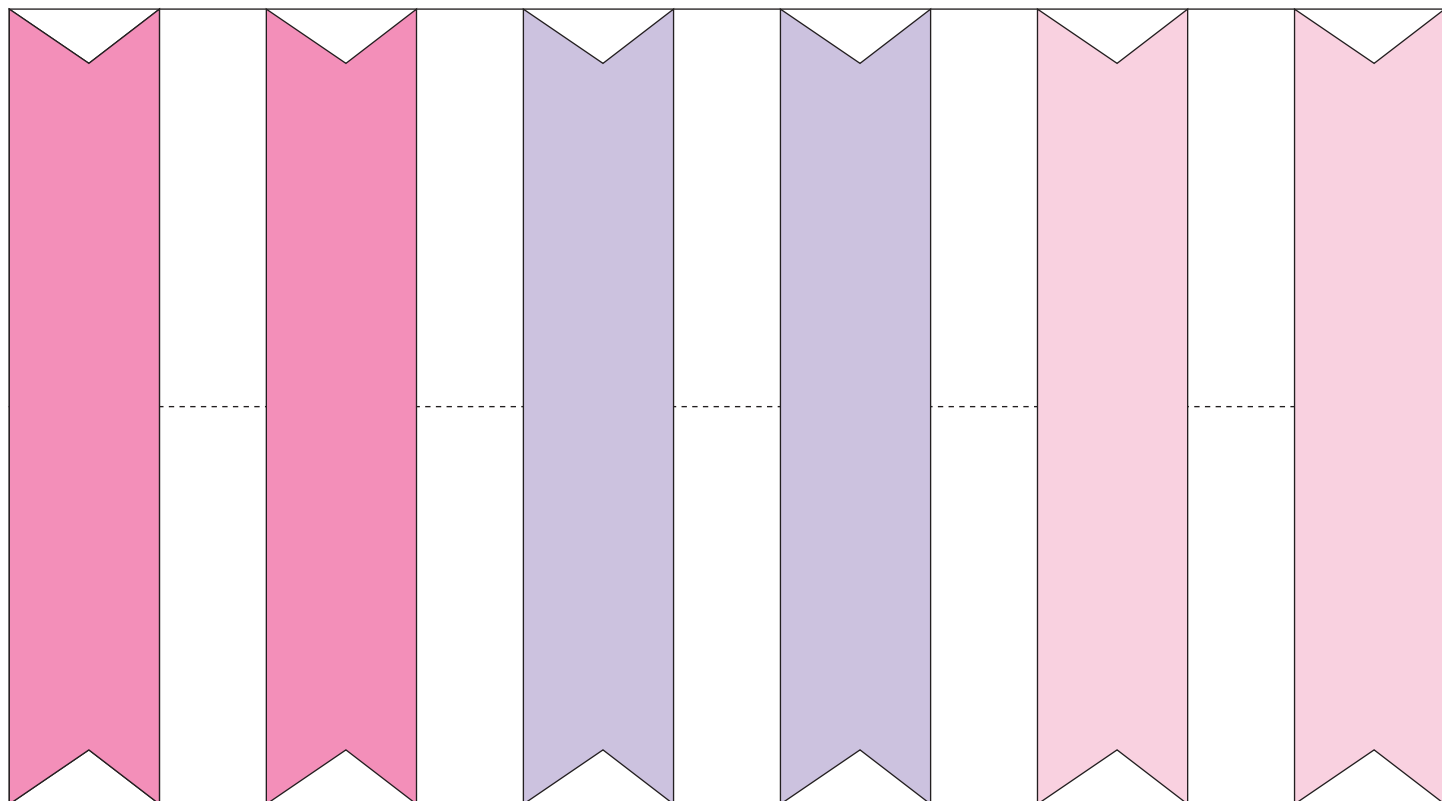

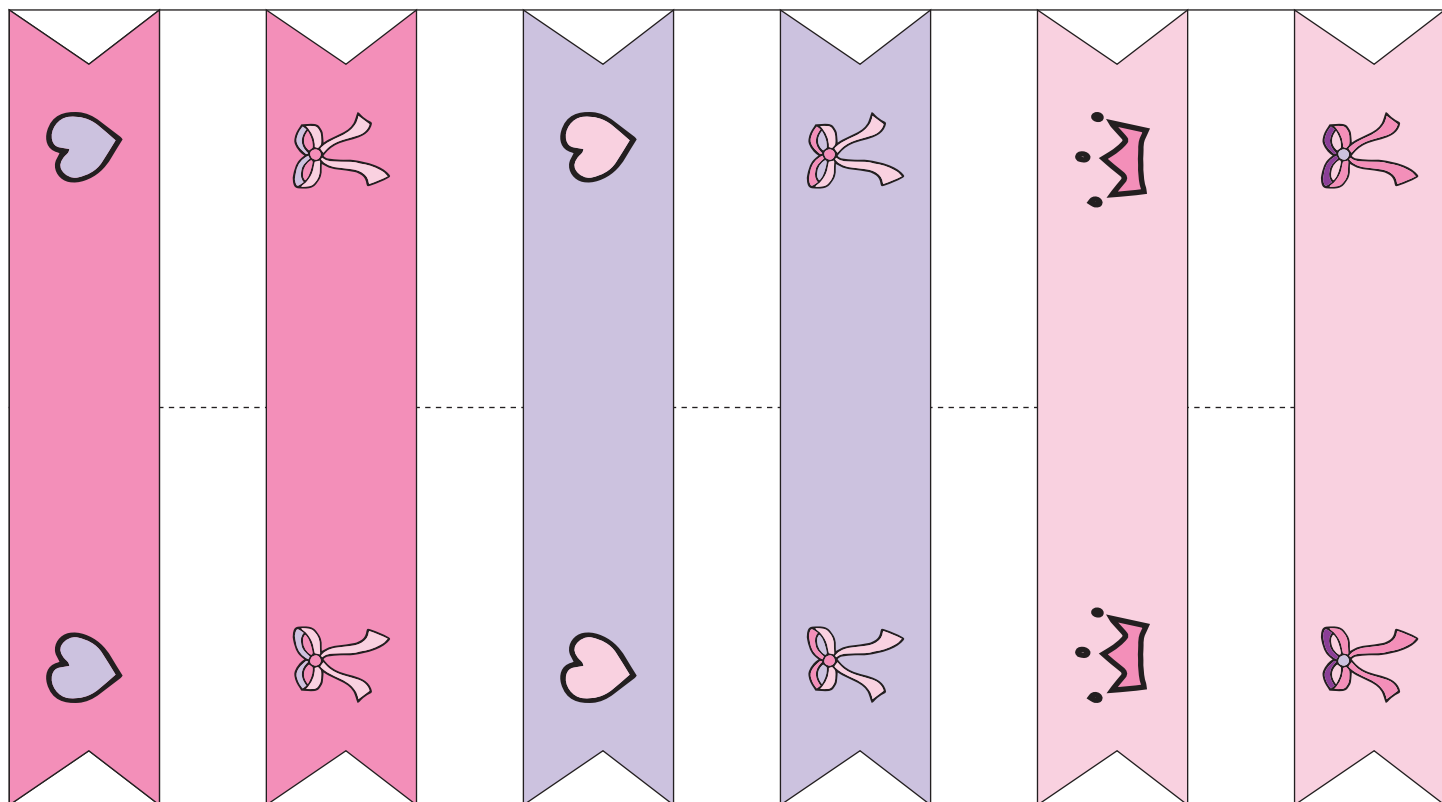

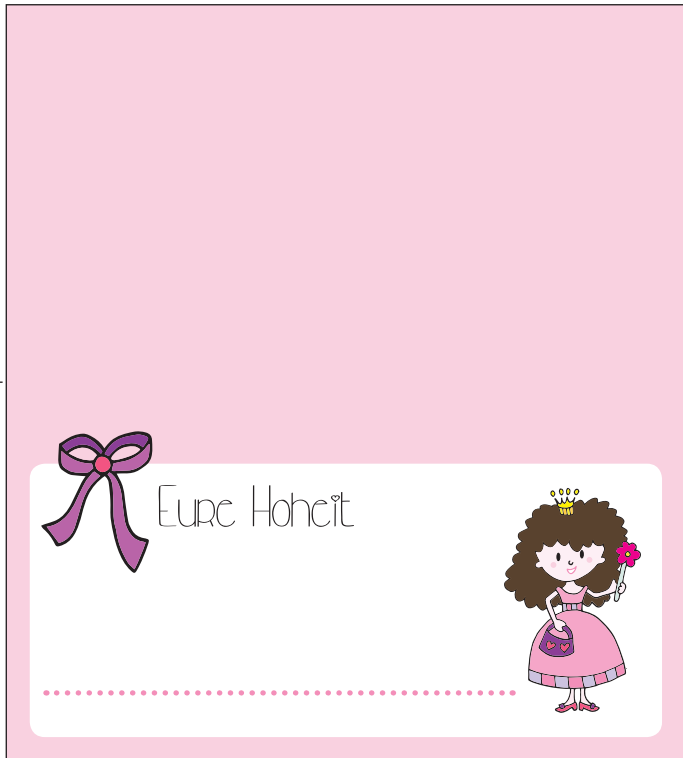

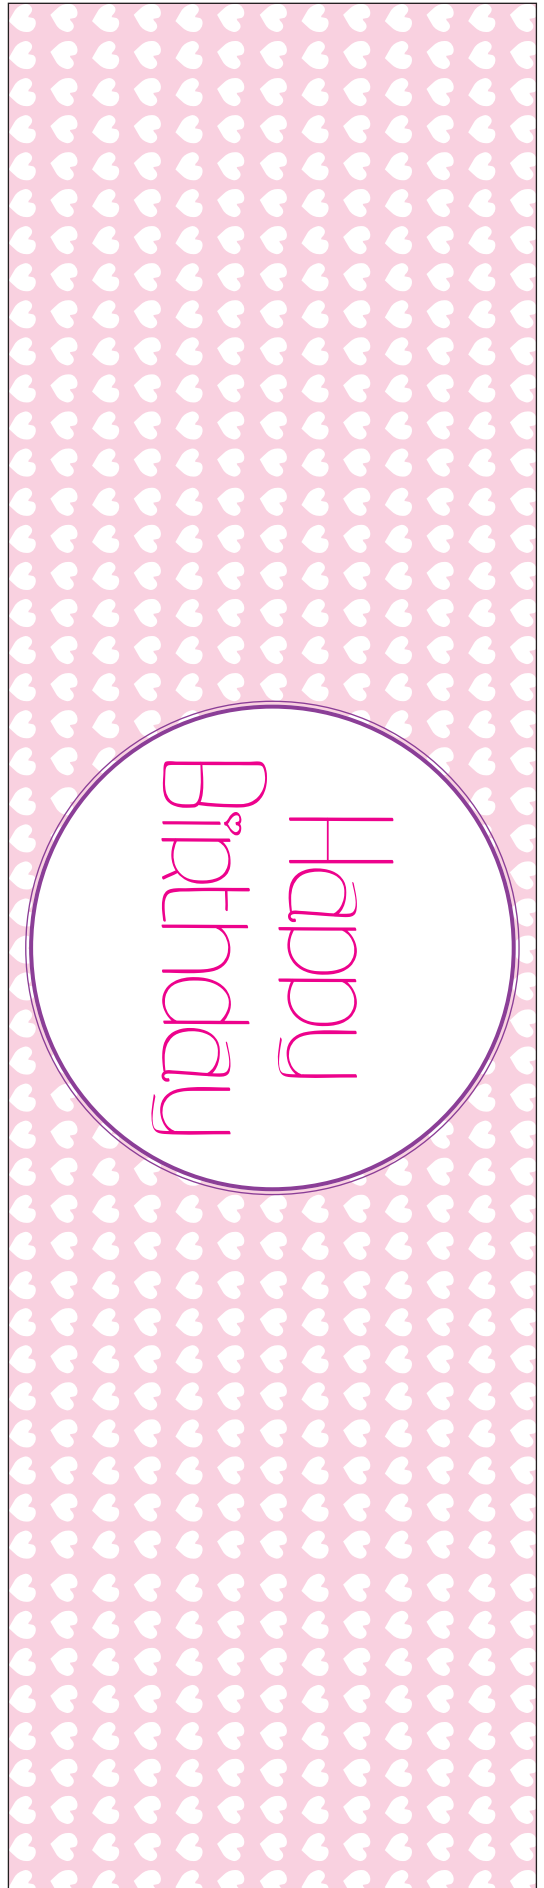

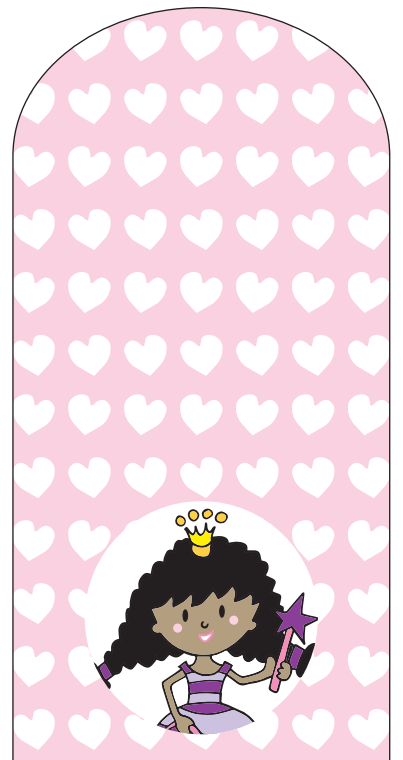

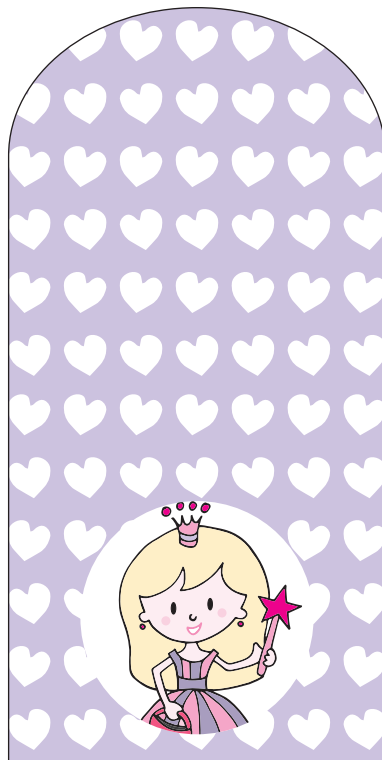

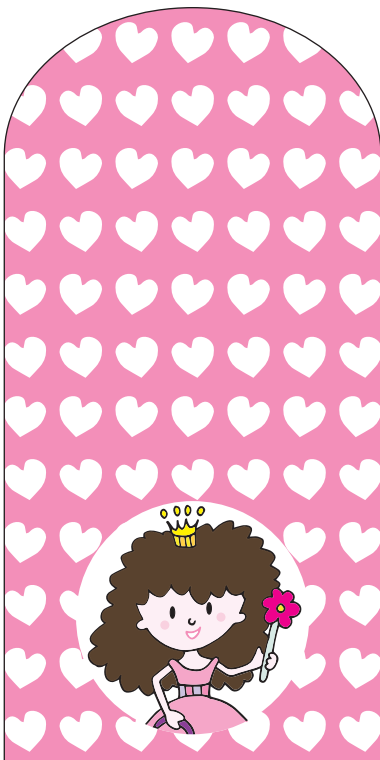

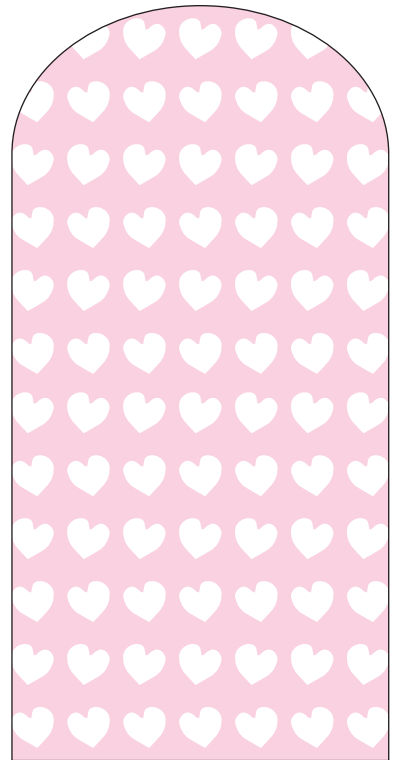

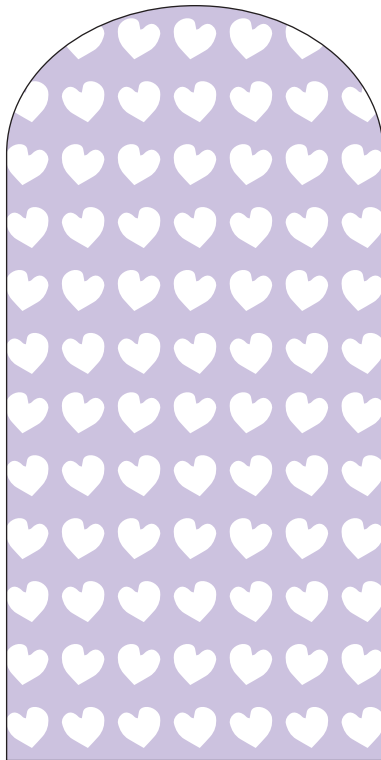

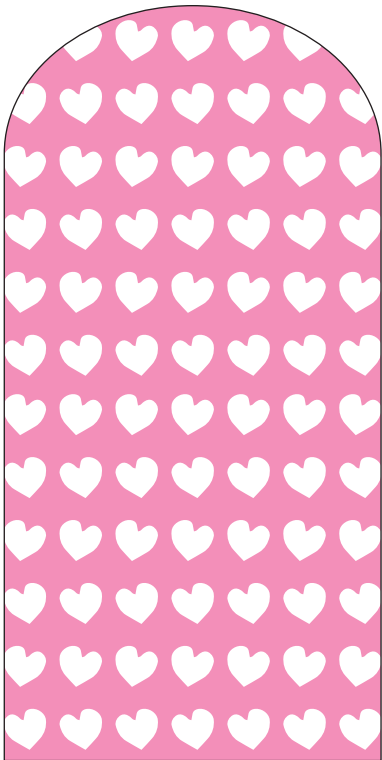

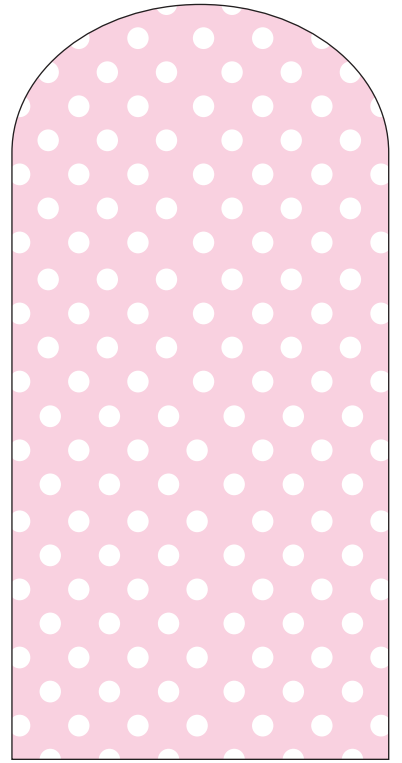

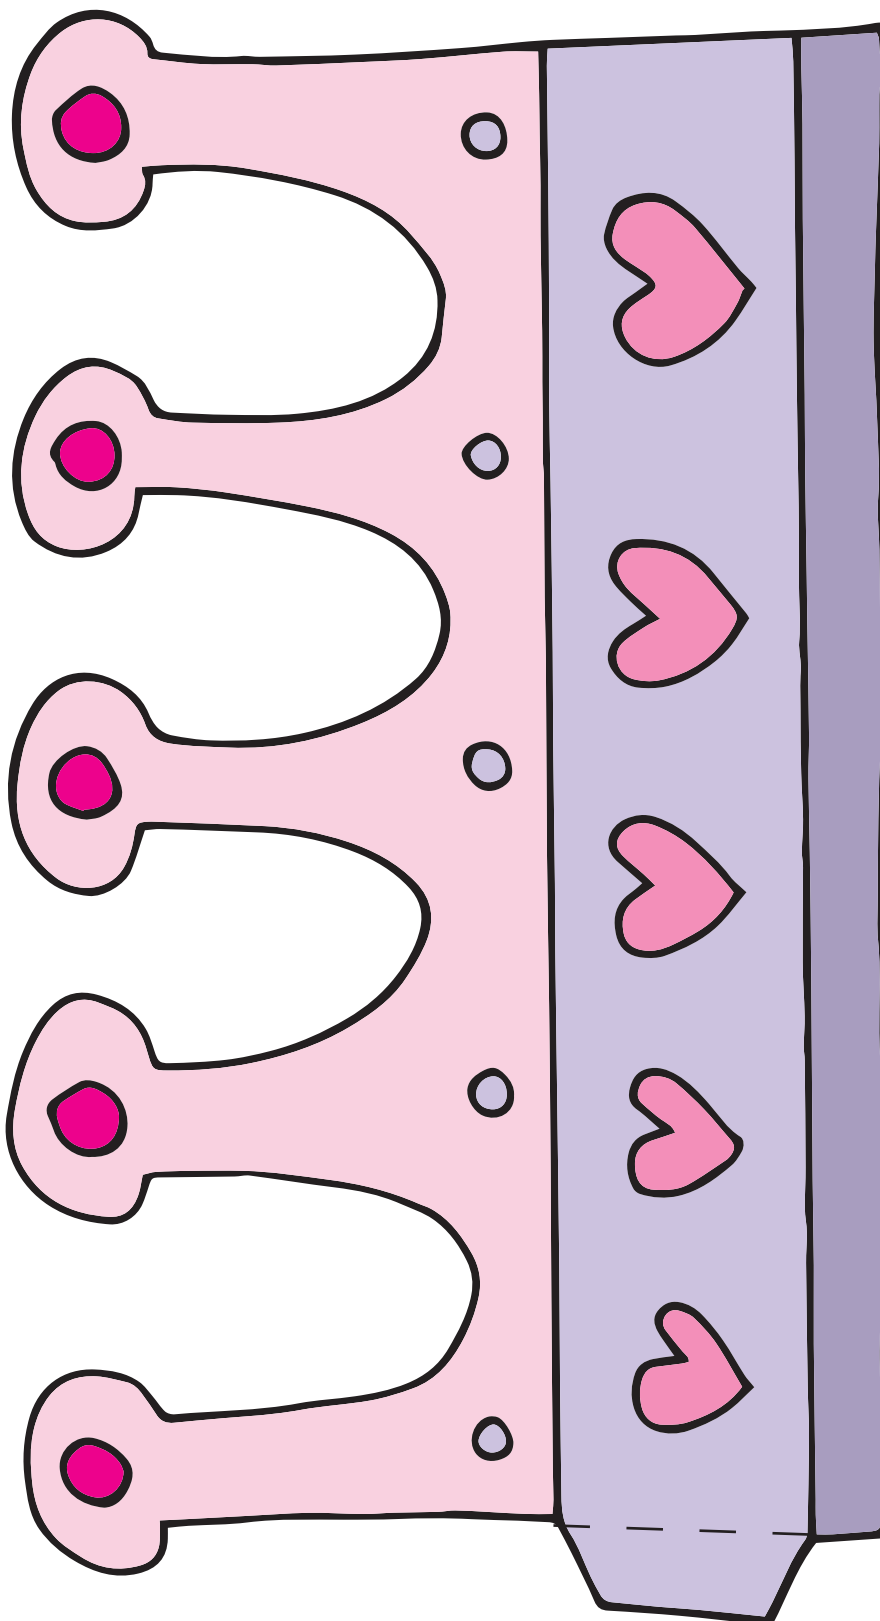

Krone

Die Krone druckst Du am Besten auf **160g/m** Papier. Schneide sie dann aus.

Entweder machst du nun etwas Klebe auf die kleine weiße Fläche am Rand der Krone und drückst diese auf der anderen Seite der Krone fest oder Du schneidest die weiße Fläche ab und befestigst ein Gummiband an beiden Rändern der Krone.

Die Krone druckst Du am Besten auf **160g/m** Papier. Schneide sie dann aus.

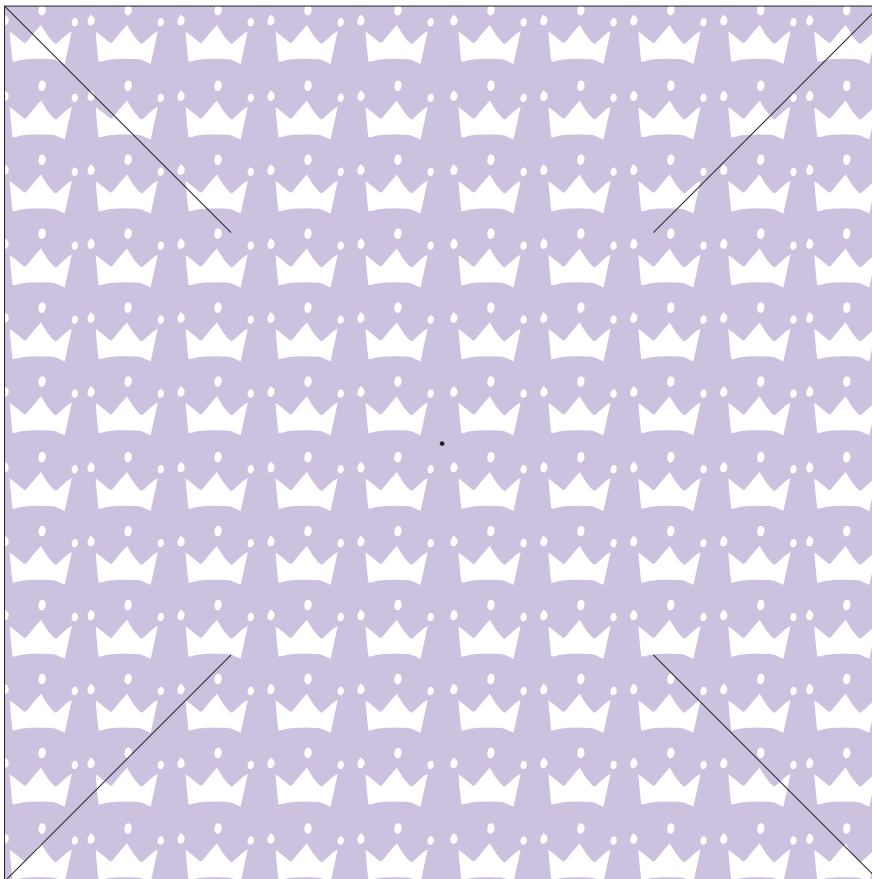

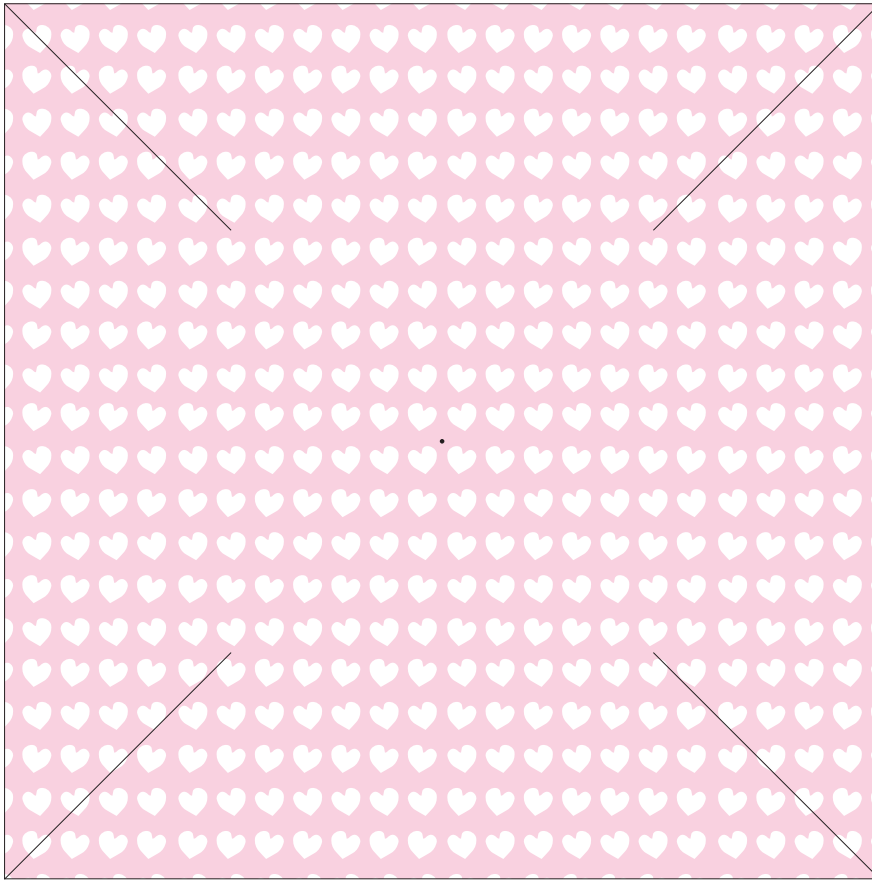

Entweder machst du nun etwas Klebe auf die kleine weiße Fläche am Rand der Krone und drückst diese auf der anderen Seite der Krone fest oder Du schneidest die weiße Fläche ab und befestigst ein Gummiband an beiden Rändern der Krone.

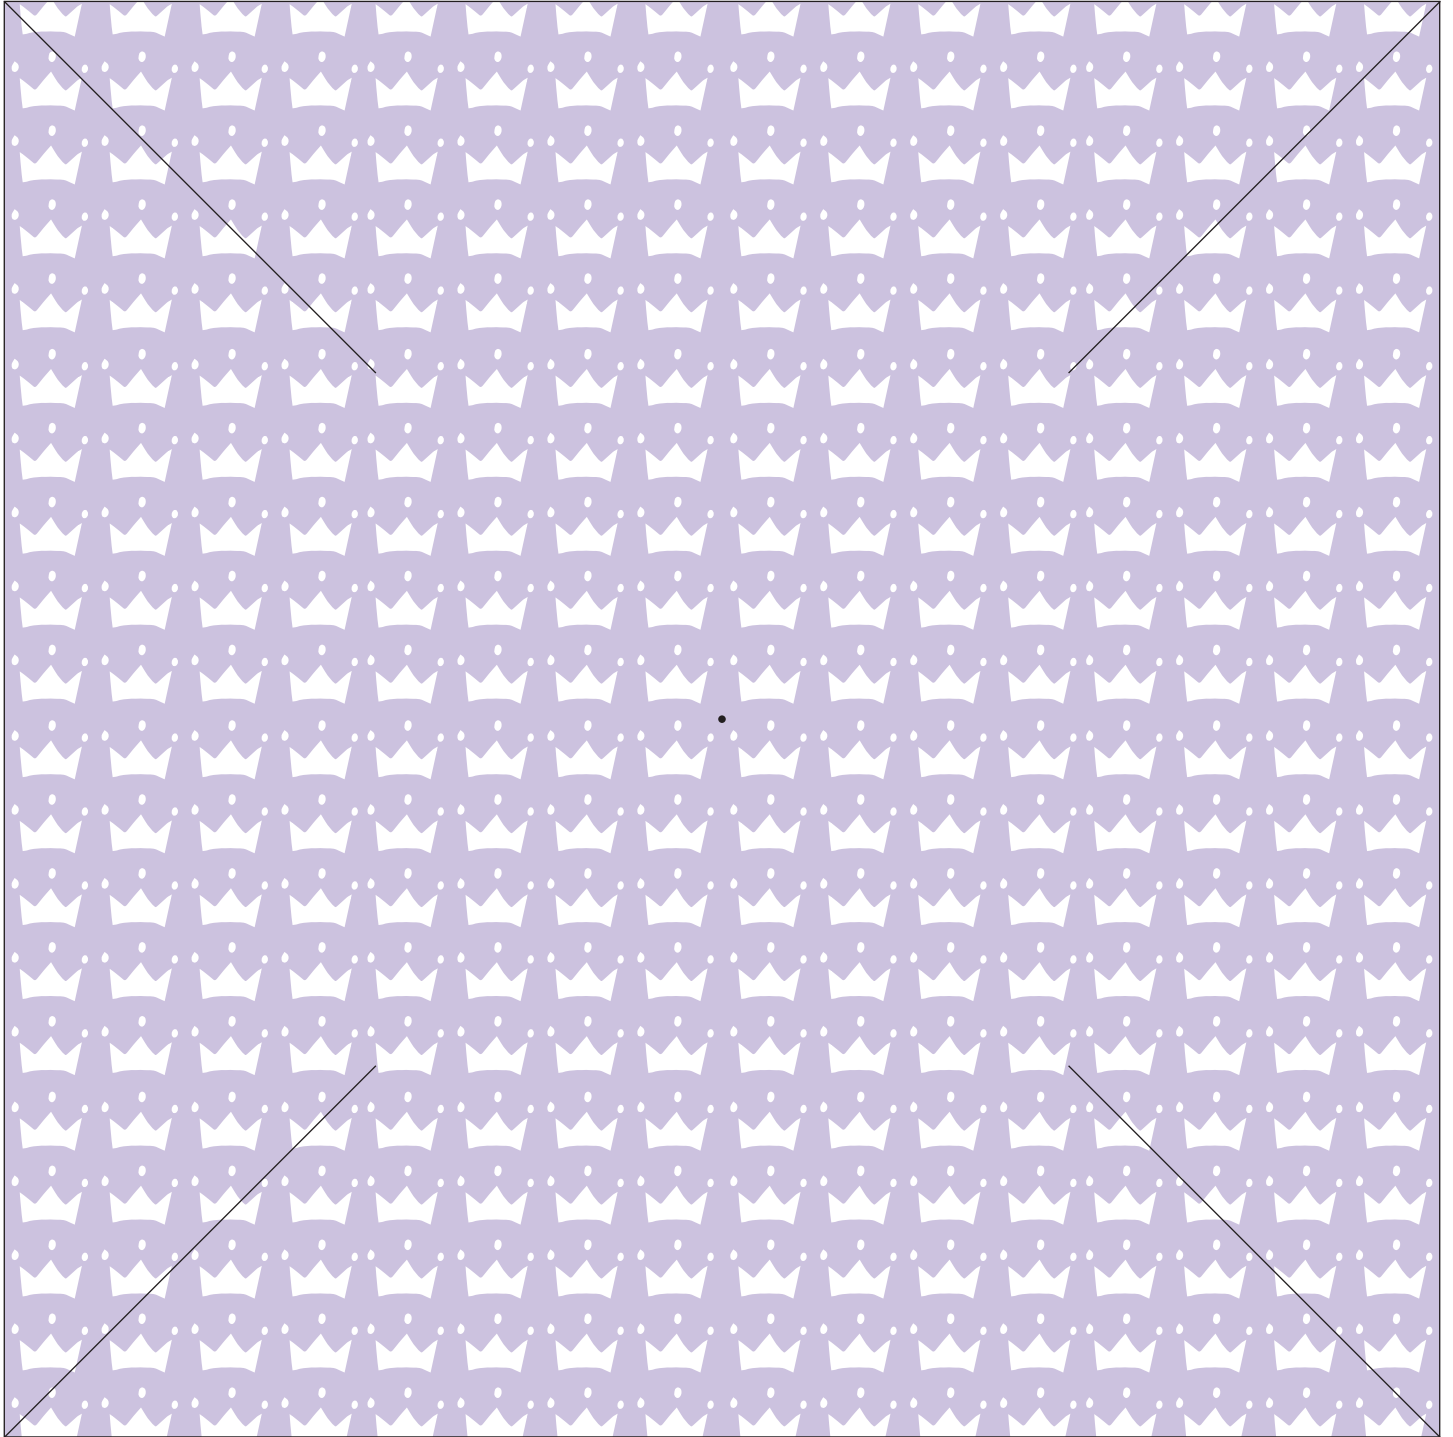

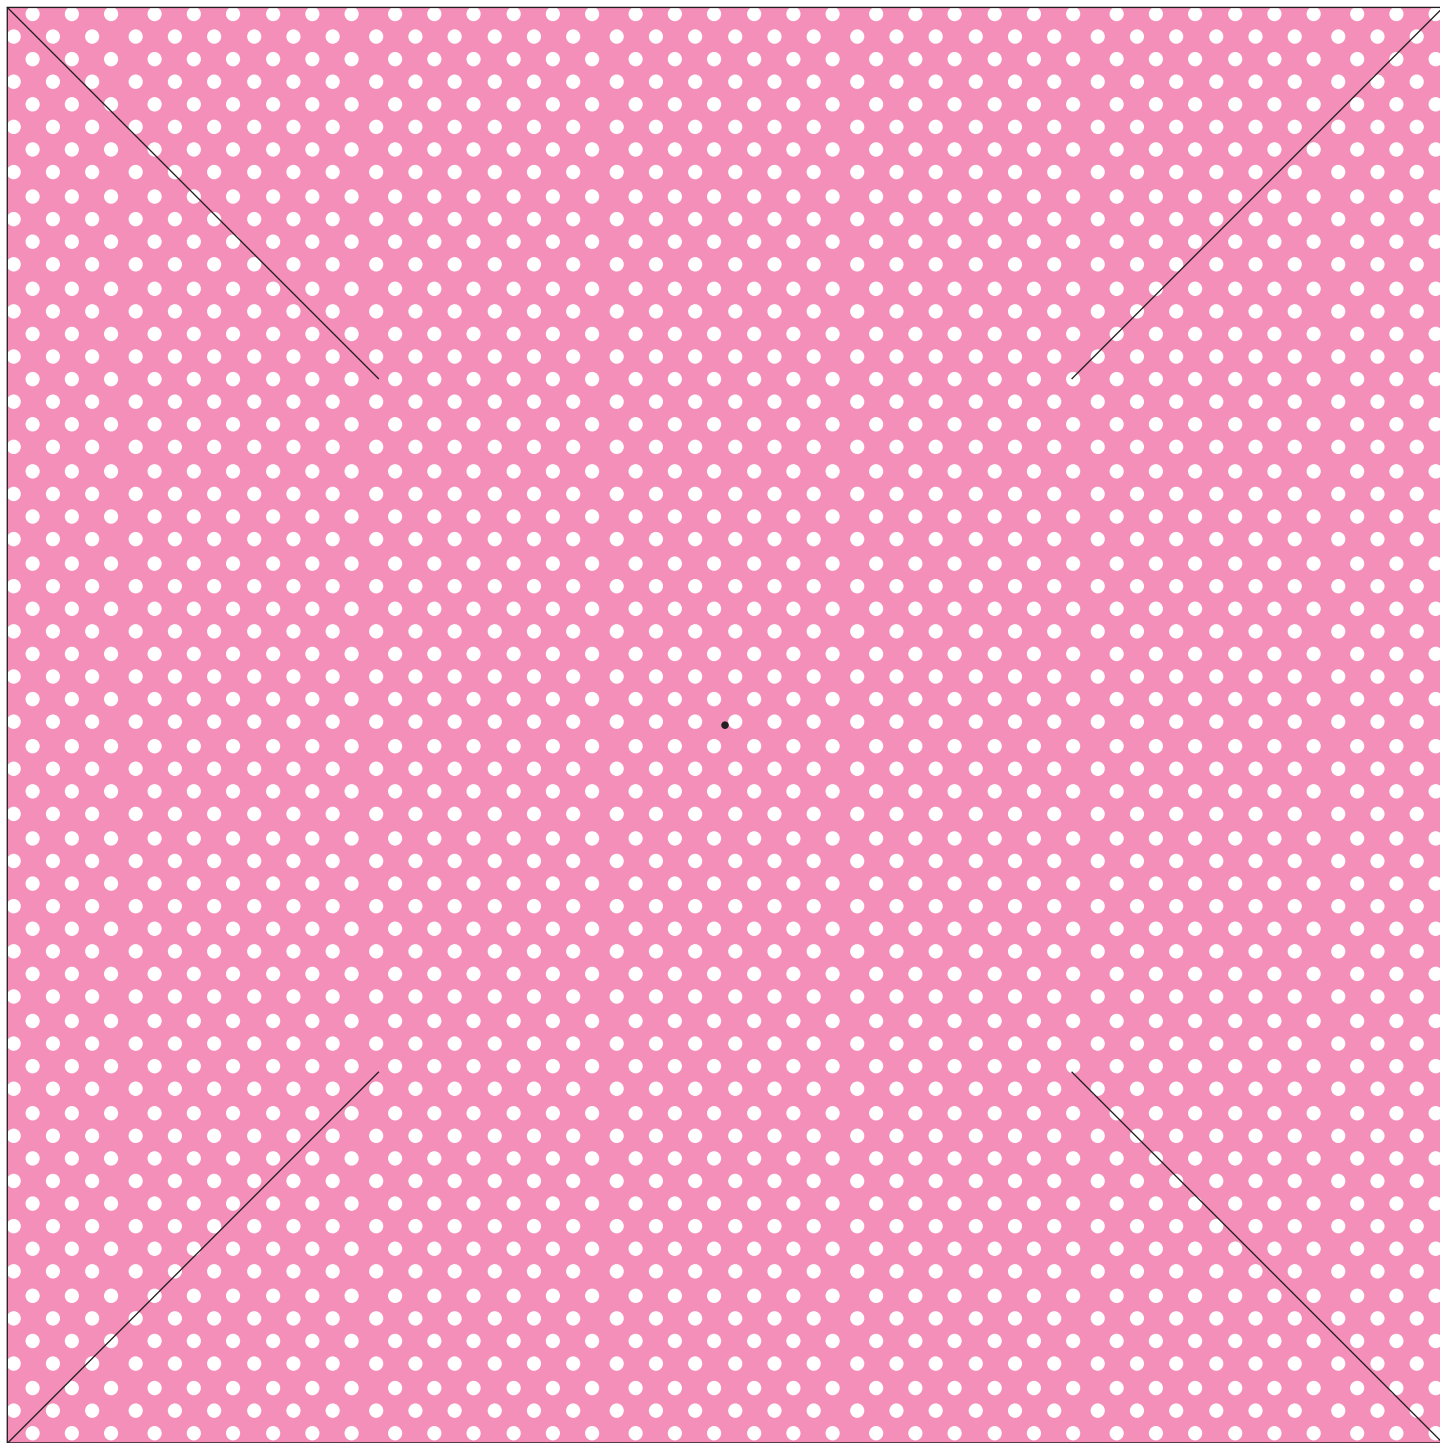

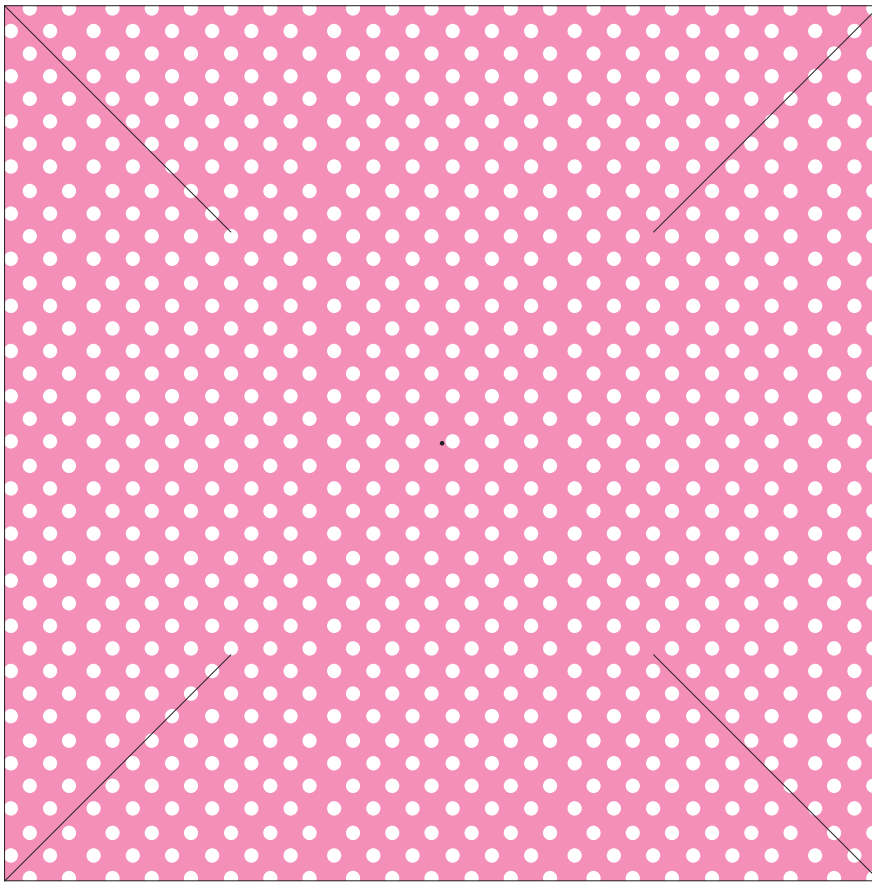

Zepter

Das Zepter druckst du am Besten auf **160g/m** Papier.

Um sicher zu gehen, dass das Zepter stabil bleibt, kannst du es nach dem Ausdrucken noch auf einen festen Karton (z.B. eine Seite einer Müslipackung) kleben. Wenn die Klebe getrocknet ist, schneidest du es rundherum aus.
